

# Capstone Research Topics:

## Emergency Nursing

1. Terrorist attacks and disasters; how can nurses improve personal preparedness
2. Improving the odds for a drowning victim
3. Reducing violence in the ER
4. How to improve rural access to emergency care
5. Improving patient flow
6. Should the family be allowed to remain for resuscitation
7. Effects of tasers on cardiac disorders
8. Identification of sepsis
9. Pediatric trauma and shock
10. Best strategies for overcoming pepper spray exposure
11. Alcohol and drug screening for adolescent patients
12. Triage and psychiatric screening improvements
13. Handling pediatric fall victims
14. Administration of medicines nasally
15. Improving patient behavior
16. Improving care for staff after the unexpected death of a child
17. Recognition of water intoxication in children
18. Identification and treatment of abused women
19. Dealing with “human trafficking” in HR
20. Dealing with miscarriage
